ASHWANTH RAJ A

About Me

I'm a Computer Science student with a strong interest in software development. I have gained practical experience through internships and personal projects, where I worked with languages like Java, C, and C++, and built full-stack web applications. I enjoy learning new technologies quickly.

Projects

CyberAware Bharat
Developed a scam awareness platform with secure user access, government admin controls, real scam reporting, and a help section linking to India's cybercrime portal.

Admin Blog
Developed an admin-controlled blog platform using the MERN stack with login system, user roles, comments, and likes.

AquaStream
Developed AquaStream, a decentralized data marketplace using blockchain and IPFS with smart contracts for access control, secure dataset sharing, and a buyer-only feedback system.

Internships

MERN Stack Intern | Web Stack Academy (Feb – Apr 2024):
Built Homely Hub – a restaurant booking app with search filters and secure payments, improved booking efficiency.

C-DAC Internship: Cybersecurity Tools Testing (Aug – Sep 2024):
Tested cybersecurity tools to assess their ability to detect and address system vulnerabilities.
